Pre-Commande SRAM: concept nouveau et simple

Rabais Pre-Commande

Afin de simplifier la structure des pré-commandes chez SRAM et toutes les sous-marques, nous suivrons désormais un principe de pré-commande basé sur le volume. Cela signifie que le rabais de précommande sera calculé en fonction du volume de précommande. Vous ne devez donc plus atteindre des quantités spécifiques à l'offre pour obtenir le rabais souhaité, mais vous commandez exactement ce dont vous avez besoin.

Rabais Pre-Commande	Volume de commande net
3% (+2% LSV)	Fr. 1'000 - 2'999
5% (+2% LSV)	Fr. 3'000 - 4'999

- Disques (max. 15%)
- Plaquettes (max. 20%)

GUSTAV PRO

MAGURA
PERFORMANCE COMPONENTS

SIZE MATTERS

GUSTAV IS BACK!

Avec des disques de 2,5 mm d'épaisseur et un volume d'usure fortement augmenté, MAGURA ouvre un nouveau chapitre de l'histoire des freins pour vélo. Face au nouveau **GUSTAV PRO**, les autres freins ont l'air de jouets. Pour des performances silencieuses. Du sommet au fond de la vallée. Mais GUSTAV est bien plus que de la force à l'état brut !
